COMMITTEES:
AGRICULTURE, NUTRITION,
AND FORESTRY
COMMERCE, SCIENCE,
AND TRANSPORTATION
JOINT ECONOMIC COMMITTEE
JUDICIARY
RULES AND ADMINISTRATION

United States Senate
WASHINGTON, DC 20510

May 15, 2024

The Honorable Patty Murray
Chair
Appropriations Committee
Washington, DC 20510

The Honorable Susan Collins
Vice Chair
Appropriations Committee
Washington, DC 20510

The Honorable Jeff Merkley
Chair
Senate Appropriations Subcommittee
on Interior, Environment, and Related
Agencies
Washington, DC 20510

The Honorable Lisa Murkowski
Ranking Member
Senate Appropriations Subcommittee on
Interior, Environment, and Related
Agencies
Washington, DC 20510

Dear Chair Murray, Vice Chair Collins, Chair Merkley, and Ranking Member Murkowski,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2025 Subcommittee on Interior, Environment, and Related Agencies Appropriations, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Amy Klobuchar
United States Senator

**Klobuchar, Amy(D-MN) Interior and Environment
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
City of Adrian	The City of Adrian requests funds to replace an ion exchange system at the city's water treatment plant.	Adrian MN	\$402
City of Albert Lea	Funding to purchase vital equipment for improvements to our waste water treatment facility (WWTF).	Albert Lea MN	\$5,000
City of Alpha	The City of Alpha requests funds to construct a water treatment plant and water distribution system.	Alpha MN	\$11,760
PRESERVE APPLETONS HERITAGE INC	The purpose of this project is to secure and tuckpoint the brick, repair the foundation and replace the failing windows in the 129-year-old historic building in Appleton. It has suffered some interior damage and these deficiencies need to be addressed.	Appleton MN	\$494
St. Louis County on Behalf of the Ash River Sanitary District	To replace existing old, failing ISTS systems with a new community wastewater treatment system to help to improve water quality in Ash River and downstream water bodies in the Voyageur National Park.	Ash River Sanitary District MN	\$4,000
City of Austin	This project involves the removal and re-planting of approximately one hundred fifty (150) ash trees that are infested with the emerald ash borer. Focus will be on hazardous and dangerous trees located near parks, trails and homes near boulevards.	Austin MN	\$450
City of Barnesville	This project will reconstruct the water main, sanitary sewer main, and storm sewer systems within the City of Barnesville's Northwest Area.	Barnesville MN	\$6,400
Northern Township	The primary purpose is to install a sanitary sewer system along CSAH 20 through Lake Bemidji State Park and the eastern side of Lake Bemidji to replace aging individual septic systems.	Bemidji MN	\$12,000
City of Bemidji	This is a high priority for the city as the project is needed to meet all of the State and Federal requirements for water quality and redundancy at our Wastewater Treatment Facility.	Bemidji MN	\$4,600
City of Big Lake	The City of Big Lake requires improvements at its Wastewater Treatment Facility (WWTF) to address future growth in the City and aging infrastructure issues.	Big Lake MN	\$15,000
City of Blaine, MN	The funds will be used to refurbish Water Tower #2 and to construct a small building to provide secured access to the tower for inspection, maintenance, and repairs.	Blaine MN	\$1,840
City of Bloomington, MN	Replacement of end-of-life and energy-inefficient pumps, motors, and controls at the Poplar Bridge and W 82nd Street drinking water booster stations.	Bloomington MN	\$1,500
City of Bloomington, MN	Upsizing of the existing sanitary sewer system to accommodate new densification of land use in the Penn American District, City of Bloomington.	Bloomington MN	\$3,000
Brainerd Historic Water Tower Preservation Committe	Restore the Exterior Stucco on the Historic Brainerd Historic Water Tower.	Brainerd MN	\$500
City of Buffalo Lake	City of Buffalo Lake requests funds to rehabilitate the water treatment plant.	Buffalo Lake MN	\$1,340
City of Caledonia	This project consists of structural repairs, safety improvements, and re-coating both elevated water tanks owned and operated by the City of Caledonia.	Caledonia MN	\$1,200

Clay County	Clay County requests funds to connect communities to a new regional water supply in order to mitigate arsenic and manganese contamination throughout the county.	Clay County MN	\$5,302
Sherburne County	Sherburne County requests funds to build infrastructure and support conservation, traditional cultural practices, and cross-cultural learning opportunities for a parkland development project.	Clear Lake MN	\$3,500
Fond du Lac Band of Lake Superior Chippewa	To provide capacity for a wastewater treatment system in the rural areas of the Sawyer District on the Fond du Lac Reservation in and around Big Lake in order to protect drinking water, fishing and treaty rights and recreational opportunities.	Cloquet MN	\$17,000
City of Cokato	Construct watermain to tie the Dassel Cokato High School and Middle School campus to the City of Cokato City water system in order to provide safe palatable drink water to the students and faculty, support the school fire suppression system, and provide capacity for economic growth.	Cokato MN	\$2,200
City of Cold Spring	The purpose of the project is to update and replace aging infrastructure, which will improve the reliability and performance of the City's wastewater treatment facility.	Cold Spring MN	\$5,000
City of Coleraine	The City of Coleraine will be reconstructing infrastructure throughout the city including sewer, water, storm sewer, and streets that are old and beyond repair.	Coleraine MN	\$4,000
City of Cook	The City of Cook's Wastewater Pond Reconstruction project aims to prevent the failure of dike walls that could result in public health issues, property damage, and environmental contamination and comply with effluent discharge limits.	Cook MN	\$315
City of Crookston City of Crookston	This project is a comprehensive Stormwater Management Project focusing on mitigating stormwater effects around Crookston's northeast region.	Crookston MN	\$2,951
City of Currie	Install a settling plate in our water treatment plant to decrease the manganese in our water supply.	Currie MN	\$117
City of Danube	The City of Danube requests funds to construct a water treatment plant, rehabilitate existing supply wells, and construct a new well to prevent exposure to radium.	Danube MN	\$3,800
City of Dayton	City of Dayton requests funds to improve water quality and fire fighting capability in city's northwest region.	Dayton MN	\$7,000
City of Dennison	The City of Dennison is in need of a new well, rehabbed well house, water tower improvements, watermain looping, and an expansion of their wastewater treatment pond.	Dennison MN	\$2,500
City of Duluth	The Duluth Aerial Lift Bridge needs rehabilitation to ensure continued accessibility and public safety.	Duluth MN	\$11,200
City of Duluth	The City of Duluth requests funds to bring the Water Treatment Plant into compliance with EPA requirements.	Duluth MN	\$5,410
City of Eagle Lake	The construction of a new water treatment facility will provide clean drinking water to residents and address water quality issues, including high manganese levels.	Eagle Lake MN	\$5,000
City of Eden Prairie	This project will replace traditional electric and natural gas heating and cooling equipment at the City of Eden Prairie Water Treatment Plant (WTP) with a geothermal heating and cooling system.	Eden Prairie MN	\$2,240
City of Elizabeth	The City of Elizabeth needs to repair its drinking water and sanitary sewer systems, which are aging and deteriorating.	Elizabeth MN	\$2,010
City of Ely	The City of Ely requests funds for the replacement of the city's water intake and Burntside Lake water main.	Ely MN	\$3,920
City of Elysian	The City of Elysian requests funds to construct a water treatment plant to contaminants including radium.	Elysian MN	\$6,578

Shattuck-St. Mary's School	To reroof the Chapel to prevent further deterioration of the building below the roof. The building is listed as one of the oldest buildings in MN., constructed in 1852.	Faribault MN	\$500
City of Flensburg	The proposed drinking water infrastructure project will include the installation of a new drinking water distribution system, two new wells, a new well house, and a new water tower.	Flensburg MN	\$2,000
City of Floodwood	This project consists of upgrading infrastructure including water, sewer, storm water and ancillary street reconstruction/curb/sidewalks.	Floodwood MN	\$1,500
City of Foley	This Project will design and construct a new water treatment plant, a new storage tank, and a water supply well, along with the necessary piping, treatment, and pumping systems. Remove contaminants from the City's well 5 and new well 6.	Foley MN	\$6,663
City of Gem Lake	The Project includes designing and constructing a new water supply system to provide safe drinking water to residents.	Gem Lake MN	\$4,600
City of Gilman	Gilman's wastewater collection/pond and stormwater system need replacement.	Gilman MN	\$2,500
City of Grand Marais	This project will rehabilitate the Grand Marais Wastewater Treatment Facility.	Grand Marais MN	\$7,360
City of Hanley Falls	Hanley Falls' project scope consists of replacing portions of failing sanitary sewer and the replacement of the watermain.	Hanley Falls MN	\$2,000
City of Hastings	The City of Hastings requests funds to construct the first of three water treatment plants necessary to remove PFOA, PFOS, and Nitrates from the drinking water.	Hastings MN	\$10,300
City of Henderson	City of Henderson requests funds to construct a water filtration plant to remove iron and manganese contaminants from the drinking water.	Henderson MN	\$4,800
Hibbing Public Utilities Commission	The City of Hibbing requests funds to construct a water treatment facility and improve the city's distribution system.	Hibbing MN	\$3,000
City of Holdingford	Holdingford's Main lift station has failed and is in need of replacement. The city will replace the structure in its current location with a new structure.	Holdingford MN	\$1,500
City of Holland	The City of Holland, MN, needs funding to replace its existing drinking water, wastewater, stormwater, and street infrastructure.	Holland MN	\$2,000
City of Keewatin	Keewatin will be undertaken a city-wide infrastructure project to replace old sewer, water, storm water mains that are old and beyond repair.	Keewatin MN	\$4,000
City of Kensington	The City of Kensington requests funding to extend the City sewer and water service to its mixed-use development and industrial users.	Kensington MN	\$2,000
City of Kettle River	Substantial updates are needed to maintain the functionality of Kettle River's wastewater and drinking water systems in order to combat safety concerns.	Kettle River MN	\$2,500
City of Kingston	Kingston's aging storm sewer infrastructure is in need of repair and replacement.	Kingston MN	\$1,300
City of LaPrairie	The City of LaPrairie's project includes upgrades to an aging sanitary sewer and storm sewer system and multiple degrading street surfaces.	La Prairie MN	\$3,000
City of Lake Henry	The City of Lake Henry's waste and stormwater systems are experiencing numerous issues due to their advanced age and failing condition.	Lake Henry MN	\$920
City of Lake Lillian	The City of Lake Lillian's aging and failing infrastructure has led to critical water issues. This proposed project scope is for their remaining drinking water distribution, wastewater, and stormwater infrastructure improvement needs.	Lake Lillian MN	\$2,000

Laketown Township	Replace 40+year old 201 Community Sewer system (20 year life expectancy) with sanitary sewer connection from home to street to met line.	Laketown Township MN	\$2,500
City of Lamberton	Lamberton is in need of infrastructure updates, replacements, and improvements, including a well source, sanitary sewer, and stormwater systems.	Lamberton MN	\$2,000
Litchfield Downtown Council, Inc.	The Litchfield Downtown Council Inc., a MN Main Street program, will improve the public facades of our downtown buildings. Funds from this project will help fulfill the purpose of our public charity to "preserve and protect our historic downtown."	Litchfield MN	\$500
City of Madison Lake, Minnesota	To replace and improve the water supply system, storm sewer, sanitary collection system, and remedy existing issues with the lift station network, establish sidewalk continuity and ADA Compliance, and provide an improved driving surface.	Madison Lake MN	\$3,283
City of Manchester	The City of Manchester requests funds to replace the city's watermain that is constructed with asbestos.	Manchester MN	\$2,700
Woman's Club of Minneapolis	Address public safety by increasing lighting and cameras on the grounds, installing fire suppression system in interior, and replacing a collapsing retaining wall that abuts sidewalk and street. Address accessibility issues by constructing new restrooms and repairing elevators.	Minneapolis MN	\$500
City of Minnetrista	The City of Minnetrista requests funds to expand the water treatment system to address manganese and iron contamination.	Minnetrista MN	\$3,000
City of Monticello	The project will construct a new centralized water treatment plant, including the plant facility, associated raw water lines, and well improvements. It also includes a water main crossing of Interstate 94.	Monticello MN	\$7,000
City of Montrose	Regionalize Wastewater Treatment with an existing commission. The existing commission consists of Howard Lake-Maple Lake-Annandale, and would be adding Montrose and Waverly.	Montrose MN	\$16,000
City of Moorhead	The City of Moorhead seeks to build and implement a modernized biosolids dewatering system to replace a 30-year old biosolids storage system. The new system enables energy, labor, and time savings while still recycling nutrients available to area agricultural producers.	Moorhead MN	\$3,000
City of Moose Lake	The purpose is to increase treatment pond capacity to allow for development in the City.	Moose Lake MN	\$2,500
City of Mound	The City of Mound requests funds to construct a water treatment facility to remove elevated levels of manganese from the city's drinking water supply.	Mound MN	\$5,900
City of Mountain Iron	The communities of Mountain Iron and Eveleth request funds to connect their water distribution systems.	Mountain Iron MN	\$8,000
City of Nashwauk	This project includes replacing water mains, water service lines, and sanitary sewer mains along 3rd Street from Central to Fern Avenues. It will also replace aging infrastructure, reduce I&I, and replace lead services.	Nashwauk MN	\$1,809
City of Nerstrand	The City of Nerstrand has drinking water source/treatment, storage, and distribution needs, along with storm and wastewater deficiencies, which are causing the system to fail due to its advanced age and deteriorating condition.	Nerstrand MN	\$2,000
City of New Auburn	The project consists of improvements to the City's wastewater treatment facility and the water, sanitary, and storm collection and distribution systems.	New Auburn MN	\$9,000
City of New Germany	The City of New Germany needs to upgrade its wastewater treatment facility to allow more homes and industries to be built and meet MPCA requirements for phosphorous limits.	New Germany MN	\$6,200
City of New Hope	The proposed project is to install a cured-in-place pipe in sanitary sewers within New Hope.	New Hope MN	\$1,800

Middle Fork Crow River Watershed District	This project is for the mitigation of hydrogen sulfide gas in Lake Monongalia.	New London MN	\$1,763
City of Newport	Capital improvements to the City of Newport's wastewater collection system, adjacent public infrastructure, stormwater conveyance and treatment, and related infrastructure systems to reduce the amount of inflow and infiltration (I&I) to the regional sanitary sewer disposal systems.	Newport MN	\$6,500
Norman County	Norman County requests funds to address arsenic and manganese contamination in the drinking water by connecting communities to a new, regional water supply.	Norman County MN	\$5,174
City of Norwood Young America	The City of Norwood Young America requests funds for transportation, drinking water, and sewer infrastructure upgrades.	Norwood Young America MN	\$1,600
City of Okabena	The City of Okabena's drinking water and distribution and storm sewer system is experiencing numerous issues due to its advanced age and failing condition, and these issues are affecting the health and safety of Okabena residents.	Okabena MN	\$4,000
City of Olivia	Addition of centralized softening at the water treatment plant to allow removal of point-of-use water softeners to meet new Water Quality Based Effluent Limits (WQBELs) for chlorides. A WTP Building expansion will be required to house the new equipment.	Olivia MN	\$4,160
City of Pemberton	The City of Pemberton requests funds for repairs to their drinking water storage, well house, distribution, along with stormwater conveyance that has been linked to additional health and safety non-compliance issues.	Pemberton MN	\$2,500
City of Peterson	Construct a second well and well house and connect to existing water mains	Peterson MN	\$600
City of Peterson	Install new water ground storage tank and demo old water tower.	Peterson MN	\$384
City of Pine City	To upgrade the existing pond system. The proposed improvements include pond bank reinforcement with slope repairs and riprap to protect against wave action and wildlife damage.	Pine City MN	\$4,000
City of Pipestone	Complete interior/exterior restoration of the historic concrete water tower in Pipestone that is one of only two known concrete water towers in the State of Minnesota.	Pipestone MN	\$500
Polk County	Polk County requests funds to address arsenic and manganese contamination in the drinking water throughout Polk County by connecting communities to a new regional water supply.	Polk County MN	\$4,969
City of Prinsburg	The City of Prinsburg requests funds to rehabilitate its existing water tower to mitigate lead-based paint coating and to correct structural deficiencies.	Prinsburg MN	\$454
City of Proctor	The goal of this project is to provide water and sewer to 150 acres of undeveloped commercially zoned property in Proctor. This could provide housing, commercial, light industrial and retail uses leading to job creation, increased tax base, and housing.	Proctor MN	\$3,500
City of Revere	Due to age, the City of Revere's storm sewer system is undersized and deteriorated.	Revere MN	\$2,000
City of Robbinsdale	The City of Robbinsdale plans to construct an enhanced storm-sewer than runs through the adjacent Sanborn Park and discharges into Crystal Lake. Enhancements includes new box culverts, upsizing pipes, and other mechanisms to convey the large volumes of water collected from the upstream.	Robbinsdale MN	\$2,500
City of Rockford	The City of Rockford's proposed Wastewater Treatment Facility (WWTF) Improvements Project (Project) will address several needs at the City's WWTF.	Rockford MN	\$4,000
City of Russell	The City of Russell has drinking water, sanitary sewer, and storm sewer systems that require extensive improvements due to their advanced age and failing condition.	Russell MN	\$2,000

City of Ruthton	The City of Ruthton needs to repair and replace its drinking water storage, treatment, distribution, and sanitary system.	Ruthton MN	\$2,000
City of Sacred Heart	To complete the necessary infrastructure improvements that the City of Sacred Heart has been phasing due to affordability, since 2012. This final phase will be to complete the drinking water system/storage and wastewater storage.	Sacred Heart MN	\$2,000
City of Sanborn	Reconstruction of the failing sanitary sewer collection system, replacing the lift station and relining the secondary sewage pond at the wastewater treatment facility.	Sanborn MN	\$2,000
City of Sauk Rapids	City of Sauk Rapids requests funds to abate and mitigate PFAS contamination in its drinking water supply.	Sauk Rapids MN	\$5,760
City of Scanlon	Dewey Avenue provides access to City Hall, the public work garage, the Community Center, a daycare/after-school program, and a City park. Funding is needed to improve the storm sewer, watermain, and sidewalks/access to these public facilities.	Scanlon MN	\$1,056
Town of Silver Creek, MN (township)	The Town of Silver Creek is proposing to construct a publicly owned wastewater collection system and regionalize with Two Harbors, MN for wastewater treatment in the Stewart River Subordinate Sanitary District to replace private septic systems.	Silver Creek MN	\$2,000
City of Silver Lake	City of Silver Lake requests funds to address pressing issues with the City's water distribution/treatment system, wastewater treatment, storm sewers, and aging infrastructure.	Silver Lake MN	\$9,221
City of South Haven	Necessary infrastructure improvements consist of the replacement of select portions of the water distribution system along with the replacement of their water meters.	South Haven MN	\$2,000
City of Spring Lake Park	The project will install critical infiltration areas as part of the city's comprehensive strategy to improve stormwater management.	Spring Lake Park MN	\$850
City of St. Augusta	This project will construct a new water tower, water treatment plant, and two water supply wells in the City of St. Augusta.	St. Augusta MN	\$7,000
City of St. Francis	The City is requesting assistance on the replacement and expansion of trunk water and sewer facility lines.	St. Francis MN	\$6,000
City of St. Joseph	Environmental review, right-of-way acquisition, design, and construction of a new 24-inch to 36-inch trunk sanitary sewer main on the west side of the city of St. Joseph.	St. Joseph MN	\$9,091
City of St. Michael	The project aims to improve surface water quality and meet regulatory requirements by improving biosolid processing and reducing the amount of phosphorous and nitrogen discharged from the plant.	St. Michael MN	\$5,000
Minnesota Transportation Museum	The purpose of this project is to repair, replace and preserve the roof of the Historic Jackson Street Roundhouse in St. Paul, MN.	St. Paul MN	\$500
East Side Freedom Library	To maintain the historic Carnegie Library located at 1105 Greenbrier Street, Saint Paul, MN 55106. This over one-hundred year old structure was not fully maintained when it was a public library, and is now need of repair.	St. Paul MN	\$500
Minnesota Humanities Center	Minnesota Humanities Center requests funds to expand education of Dakota and Ojibwe sovereignty in Minnesota.	Statewide MN	\$600
City of Stillwater	The City of Stillwater requests funds to construct treatment facilities at three well locations to mitigate PFAS contamination.	Stillwater MN	\$7,040
City of Tower	The Marina Drive Water Sewer Extension Project aims to extend our water and sewer lines to connect several businesses and a new residential housing development in the City.	Tower MN	\$1,750
City of Waite Park	The project expands the City's water treatment plant to address PFAS contaminant removal and upgrades the existing treatment system for improved volatile organic carbon (VOC) removal.	Waite Park MN	\$3,000

City of Waseca	The proposed 1.0 million gallon elevated water storage tank southwest of the CSAH 14 and CSAH 2 intersection would provide water storage needed to meet peak demand, enhance fire protection, improve operations and reliability, and decrease operation and maintenance costs.	Waseca MN	\$3,000
City of Waseca	This project will assist Waseca in complying with the MPCA's mandate to eliminate illicit discharges of wastewater into area lakes and surface waters by reducing clean water inflow and infiltration.	Waseca MN	\$3,000
City of West Union	The project includes a new sanitary sewer collection system and the existing sewage treatment system replacement.	West Union MN	\$1,000
City of Wheaton	This project will provide the City of Wheaton with safe, reliable, and resilient access to drinking water. The project will specifically replace 6,000 linear feet of watermain that connects the City's treatment plant to private residences and businesses.	Wheaton MN	\$1,593
City of Wilder	The project aims to install a collection system within the City of Wilder and then regionalize it with the City of Windom.	Wilder MN	\$4,040
City of Winona	This project would enable the City of Winona to meet the requirements the Minnesota Pollution Control Agency's allowable phosphorus amount	Winona MN	\$26,000
City of Wood Lake	The current age and condition of the City of Wood Lake's infrastructure are causing numerous issues. The City must update or replace these systems.	Wood Lake MN	\$2,500
